Sviluppatori

Gli sviluppatori sono le persone del team Scrum che si impegnano a creare ogni aspetto dell'incremento.

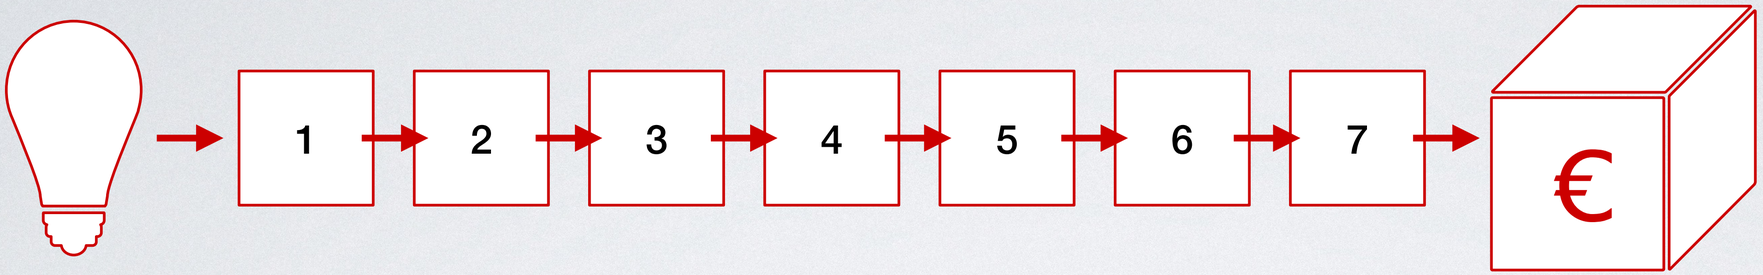

Le competenze specifiche necessarie agli sviluppatori sono spesso ampie e variano a seconda dell'ambito di lavoro. Tuttavia, gli sviluppatori sono sempre responsabili di:

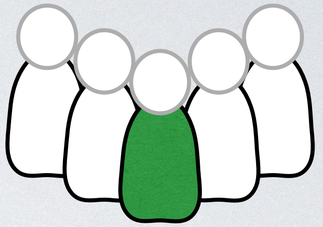

- Creare il piano per lo Sprint, lo Sprint Backlog
- Instillare la qualità aderendo a una definizione di "Fatto"
- Adattare ogni giorno il loro piano allo Sprint Goal.
- Rendersi responsabili l'un l'altro come professionisti

Adattato dalla "Scrum Guide 2020".
